

## **Premises Plan**

Harmony Primary School has worked to ensure the selected premises are suitable, meets the needs of all members of the school. This is a fundamental consideration that will contribute to raising the quality of our education.

The site we chose is itself a former school which functioned as such until 2018. Accessibility and location have been taken into account and the building has full planning permission from Harrow Council for D1 use at the site.

### **Outdoor Areas**

The outside areas of the site have various types of surface ranging from tarmac, paved and lawns. There is also space for children to be able to grow their own plants, fruit and vegetables in line with our commitment to healthy living.

### **Access for disabled people**

Mindful of the requirements of the Disability Discrimination Act, the site will be made as accessible as possible for disabled people. In particular conveniently situated spaces would be marked out and reserved for use by people with disabilities. We have a ramp to the front of the school for wheelchair users as well an accessibility toilet.

### **Traffic, Parking, Access and Sustainability**

There is vehicular access directly from the front of the site. This access has been made more accessible with a dropped kerb and clear road markings designating a school building. The site is well served by buses and trains. This will assist our students to take more sustainable modes of transport both from the local catchment area and further afield.

### **In conclusion:**

Harmony Primary School is confident that the site is adequate in size for our proposed school use.
